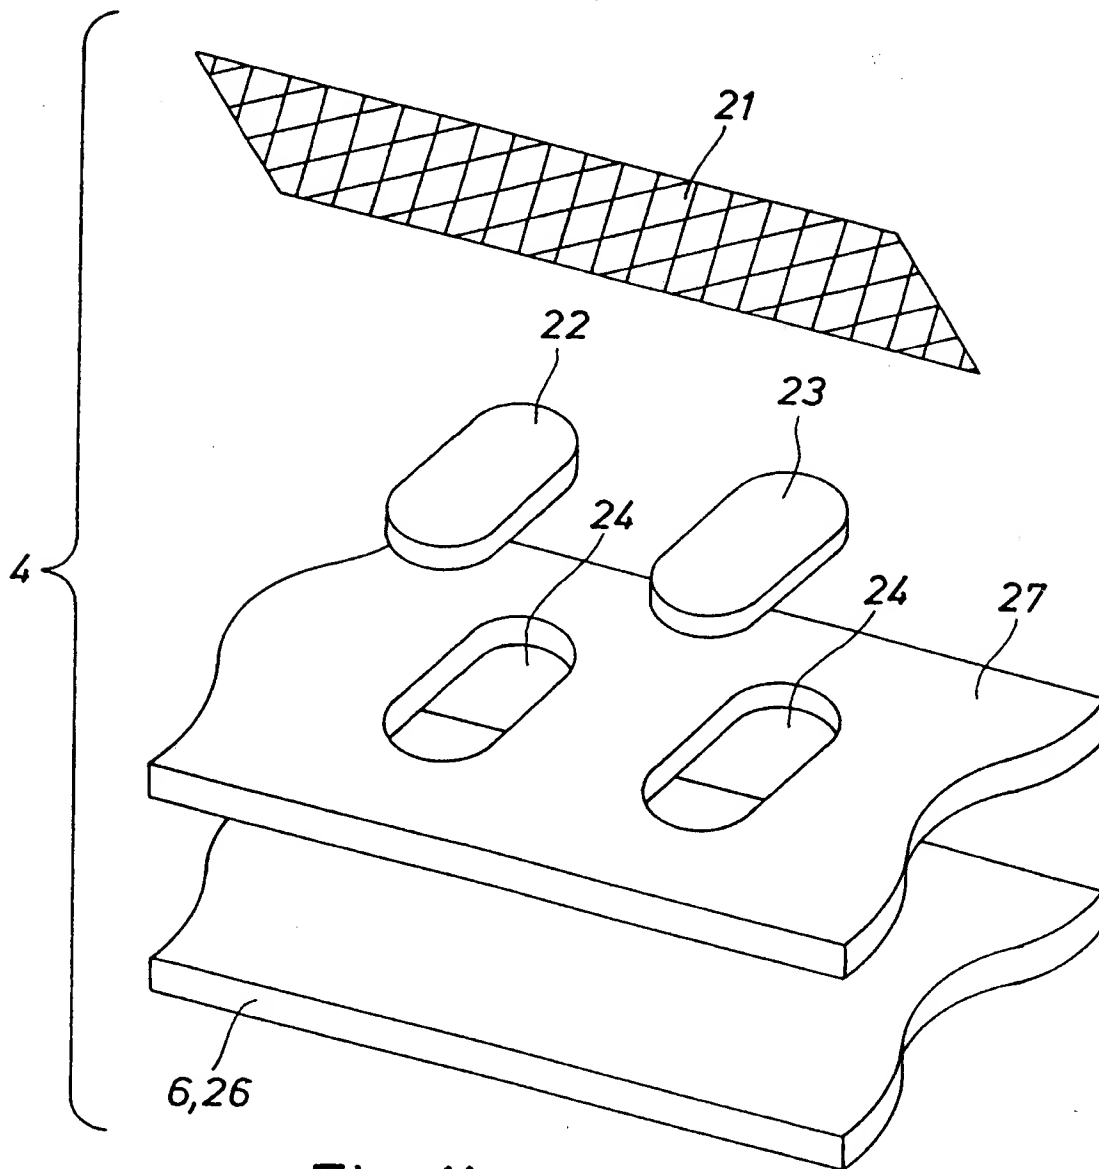

Fig. 11

FIG. 1 is a perspective view of a cylindrical container 3. The container has a circular base 14. The base 14 is shown in cross-section, revealing a pattern of small, irregular shapes, possibly representing a porous or textured surface. The container 3 is shown in a perspective view, with the base 14 at the bottom and the top of the cylinder at the top.

A cross-sectional view of a multi-layered material structure. The structure consists of several layers. The top layer is labeled 4. Below it is a layer with diagonal hatching, labeled 15. Underneath that is a layer with a cross-hatch pattern, labeled 6. Below the cross-hatch layer are two layers with diagonal hatching, labeled 7 and 5 respectively. The bottom layer is labeled 5.
